Green Jacket Salad

Description

Not sure where Debbe got this recipe but I copied it from her files years ago so obviously someone asked me to or I am just nuts!!

Ahh, I had to research this because it was driving me nuts. Well, I discovered that the recipe comes from a famous golf course restaurant(now closed) in Augusta, Georgia where we lived in the early 70's. There are several varations out on the web but this is the one she had.
