Alberto's Daiquirí

Description

This is the "convenience" version of the traditional Cuban cocktail.

Summary

Yield: 2
Source: Albert Martinez
Prep Time: 10 minutes

Ingredients

- 1 can frozen limeade, large
- rum, the fill the empty limeade can
- ice cubes

Instructions

Empty the can of frozen limeade into a blender.

Fill the empty can with rum and add it to the limeade in the blender. Cover, and begin to blend.

Once the blender is running, add ice cubes one or two at a time until you feel you have a good frozen mix.

Garnish with mint leaves.
